

Two ways I can help!

Consult

After you complete an initial questionnaire, we have two 60-minute consultations:

1) Deep dive - what do you want Dubsado to do for you? I will share my suggestions for making that happen.

Between meetings, you put together the basic setup from the plan we devised.

2) Review & wrap up - I expertly review your setup and suggest tweaks so that you will end with a great product to save you time and reduce stress!

\$150

Create

After you complete an initial questionnaire, we have one 60-minute consultation to clarify your Dubsado needs.

I will create a custom proposal with your specific goals in mind along with a project timeline.

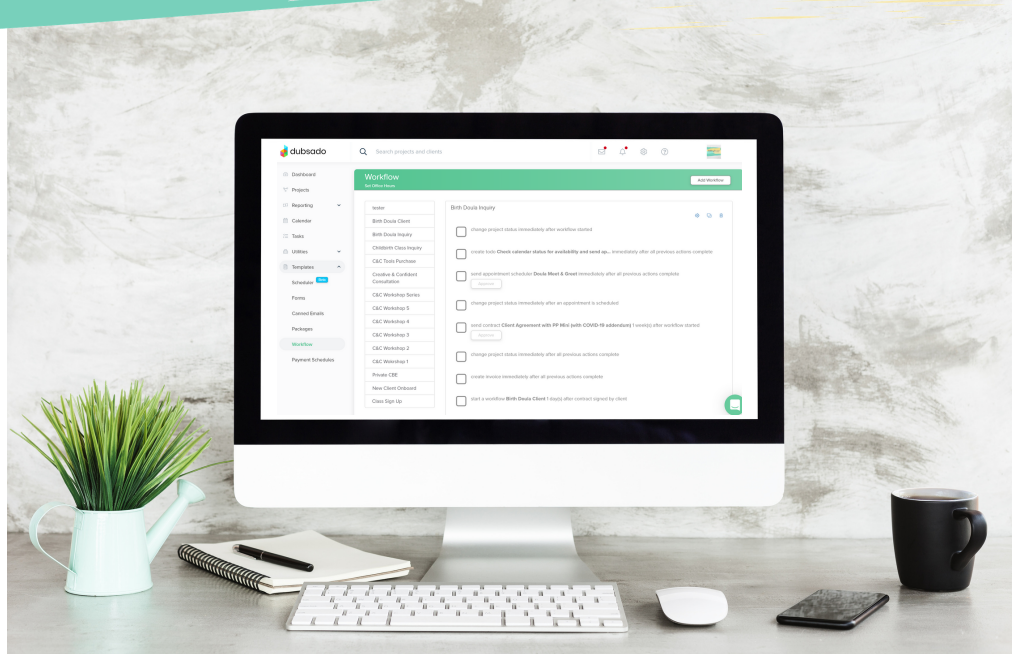

Upon approval, I will create your Dubsado set-up and test to ensure functionality.

We then meet for a second 60-minute consult where I will show you the ropes, make final tweaks and answer any questions you may have.

\$50

initial consult + custom proposal estimate (consult fee is applied to any agreed upon work)
